

CLIENT CASE STUDY

“PSM / RMP REFINERY-WIDE AUDIT”

- ∴ **Facility Type:** Refinery
- ∴ **Services Provided:** PSM / RMP Audit

The Opportunity:

- ∴ A major United State refinery was proactively ensuring compliance for their PSM Program in preparation for OSHA’s NEP Program. The refinery contacted Smith & Burgess to share best practices on performing PSM / Internal Audits and used this opportunity to train their corporate and site staff to perform future PSM audits.

Our Solution:

- ∴ Using our in-depth analysis and auditing techniques, our engineers identified where the site’s deviations occurred and then delivered an actionable plan to address these concerns.

The Results:

- ∴ Thanks to our audit team’s expertise and efficiency, the refinery’s management hired Smith & Burgess for another PSM audit with a different site.
